By Telegraph to The Times.

LONDON, July 23.—[By Cable and Associated Press.] In the Commons the Parliamentary Secretary of the Foreign Office

stated that no final programme for a maritime time conference had been agreed upon with the American Government.

The First Lord of Admiralty announced that the construction of fifty-two warships had been begun during the current year. Twenty were being built in Government dock yards, and thirty-two in private yards.

W. H. Smith, the Government leader, laid on the table the report of the Committee on Royal Grants. The report recommends that £9000 be added to the quarterly

allowance of the Prince of Wales. The report maintains the right of the Queen to Parliament to make further provision for her.

LaBouchère, in the debate on the grant Princess Louise on the occasion of her marriage to the Earl of Fife, moved a resolution that the House should not vote on the matter, to which he then attached an address to the Queen, not relating, among other things, that the sum already voted by Parliament for the royal household was not sufficient to meet their proper purposes, and that if further supplies are needed they ought to be provided through replenishment of the expenditure which is not by fresh donations upon the taxpayers.

Gladstone, although he censured the Government for its attitude, voted with the majority for the resolution on the subject.

Further discussion was postponed until Thursday.

The report of the committee advises that the Queen should be reassured by the statement that the Government will not

claim that future sovereigns shall have
claim to parliamentary provision for the
grandchildren.

BLACKSMITH SCOTT.

HE OCCUPIES THE WITNESS STAND ALL DAY.

And, in Spite of All Cross-Questioning, Sticks to His Original Story—The Case Reopened for Fresh Testimony Today.

When Charles Scott went on the witness stand yesterday in Judge McKinley's department of the Superior Court to be examined in regard to the murder of Annie Le Brun, with which he stands charged, a buzz of remarks went around the crowded courtroom. His examination in chief was very short, his attorney contenting himself with asking a few questions, to which the witness replied almost exactly as he did at the preliminary examination. He simply denied that he shot the woman and then himself, just as he has done from the time he recovered consciousness until the present time. The manner of the witness was very frank, and he made a good impression upon the jury. He spoke with a slightly French accent, but was neither willing nor reticent. He seemed to be desirous of answering each question fully and squarely and then stopping.

As soon as Mr. Payton had finished asking questions, Mr. Hardesty settled himself for a long pull at the witness, and it was a siege, for Scott was on the stand the rest of the day. The cross-examination was very minute, and the witness stood the fire admirably. He never seemed to get flustered or lose his self-possession. He stuck to his story, and could not be swayed from it. Many times when portions of his testimony at the preliminary examination were read to him, he could not remember whether he had so testified or not, but the story he told corresponded almost exactly with that given at the former examination.

He said in regard to the shooting that when he went to bed he turned over on his left side, which position was away from Annie Le Brun, who was on the inside. He heard a noise and was frightened, and just as he was turning over, was shot; then he lost consciousness, and knew nothing more until 4 or 5 o'clock, when he felt cold, got up and shut the door. On getting back to bed he discovered that Annie Le Brun was dead, and he lost consciousness again. A second time he awoke and called to the Chinaman, who ran away. Again he faintly remembered that he saw people were in the room. This is the same story that Scott has told all the time, and the prosecution vainly attempted to budge him from it.

"I did not tell her," he said, "that I proposed to keep her, and that she must not sit at her window any more. I never had an agreement with her." "Did you not tell Miss Howard that Annie Le Brun was present, that you would pay all her bills and if you caught her at her window again you would kill her?"

"No, sir. When I got rooms on South Spring street in March, I lived there until April 4th, when she moved back to Alameda street again. She was killed the week after that. I think it was the night of the 11th. It was the night of the circus that I did not know Pierre Le Brun. When Annie Le Brun told me she was because she loved me and could do no more business; that whenever she did she thought of me, and wanted to quit that life altogether. She said she went back again because she wanted money."

BUG VS. BUG.

State Controller Dunn's Ideas of the Todolia.

John P. Dunn, the State Controller, came down from Sacramento about two weeks ago and has been on his orange ranch at Duarte almost ever since his arrival.

Mr. Dunn came down to look after big orange trees, which were being ruined by the scalebug. Some weeks before his arrival he sent down 250 Australian ladybugs, which are claimed to be dead medicine on the frisky scalebug.

Mr. Dunn was in the city yesterday and answered a few questions put to him by a Times representative regarding the Australian bug.

"From what I have seen of my place during the past few days," said Mr. Dunn, "I am convinced that the ladybug will destroy the scale in a very short time, if it is given a chance."

"I sent 250 of them down a short time ago, and at that time my trees were in a frightful condition. The scale had taken charge of them and every tree in the orchard was covered with the pest."

"Today they are free from the scale and look as clean as any trees in the State. I am satisfied that there are fully 20,000 ladybugs in my orchard and they are increasing all the time."

THE CRICKET CLUB.

Organized and Ready for Practice.

A meeting of the Cricket Club was held at the Tufts-Lyons store yesterday evening, 11 members being present. Dr. A. E. Gresham was elected president and treasurer, and George Perkins, Jr., secretary. Ben Benjamin, B. J. Perry, E. C. Watson, W. Barry, A. D. Benson, P. Doyle and P. A. Hiles were chosen to serve on the committee for the coming season.

A ground has been taken at the junction of Eighth and Hope streets, at the back of the Los Angeles College, and practice will take place every Monday, Thursday and Saturday at 4:30 p.m. All gentlemen wishing to join the club can send in their names to the secretary or to any member of

the committee, and any one wishing to take part in the practice games will be cordially welcomed. The secretary was instructed to write the committee of the Santa Monica Lawn Tennis Club, asking them to fix a date for a match. The first practice will be on Thursday at 4:30 p.m.

TENTH-STREET HOTEL.

An Effort Making for Guarantee Bonds.

Several weeks ago the Tenth-street Hotel people decided to give up the idea of building the monster hotel, but they have changed their minds, and will make another effort to carry the scheme out. They contemplate issuing bonds. A careful estimate has been made, showing that the hotel can be completed according to the original plans at an additional cost of some what less than \$500,000. It is deemed best to issue bonds of \$1000 each, due five years after date, bearing interest at the rate of 6 per cent. per annum, interest payable semi-annually, the bonds to be first secured by a deed of trust or mortgage on said premises.

The directors say they have received assurance that the bonds above mentioned to the extent of \$500,000 can be readily disposed of, provided the interest on the same is guaranteed for the first five years. It is now proposed to issue 500 bonds of \$1000 each to guarantee the interest on the bonds to run 20 years, and to bear interest at the rate of 6 per cent. per annum, after the second year, which said bonds shall be secured by a second mortgage or deed of trust. The money obtained for the 500 bonds at \$800, amounting to \$400,000, is to be deposited in some recognized trust institutions or banks pending the payment of interest on the \$500,000 in bonds as it becomes due.

The unpaid portion of the \$150,000 is to earn interest, said interest to be devoted to paying taxes and other incidental expenses.

This subscription is made with the understanding that no interest shall be paid on the bonds of \$300 for the first two years from their date.

It is further expressly understood and agreed that if the \$500,000 in bonds are not issued and the money secured therefor on or before January 1, 1890, then the amounts subscribed shall be returned to the respective subscribers.

A. H. Denker, president of the company, has issued the following statement showing the amounts of money subscribed and paid up, and the persons who subscribed to it:

The testimonies were proposed to be introduced in relation to Scott's movements the night of the murder. He has testified that, when he came home after the circus with Annie Le Brun, he went right to bed. It is proposed to show by witnesses that Scott was out of the house after that, went to a saloon and got some whisky. The case will probably be concluded today.

PASADENA NEWS.

THE DAY'S BUDGET IN SMALL PARCELS.

Condensed Items—A Willy Teuton—Died—An Accident—It Don't Work—Local Intelligence—Potpourri—Gleanings Everywhere—Personal Mention.

PASADENA, July 22.—[Correspondence of The Times.] A German named August Franke got on a jamboree yesterday afternoon, and wound up his freak in the evening by raising a circus in the German Methodist Church. The festive Teuton tried to get up an argument with the man in the pulpit, but was promptly set down on. Officer Strang was sent for, who landed him in the courtroom. He put up \$10 and was allowed to go until today. This afternoon he was discharged on payment of a fine.

CONDENSED ITEMS. A number of Pasadena cyclists took a run yesterday to Monrovia, where dinner was partaken of at the Grand View Hotel. The party was composed of A. L. Atkins, T. A. Simpson, E. M. Buckius, P. O. Prince, F. McGarrey and S. Yates. On next Sunday the club goes to San Gabriel. An auction sale of the fruit stand of D. H. Noyes took place this afternoon. Constable Slater acted as auctioneer and sold enough cigars to last the whole population in a day. Bidding on other articles was very tame, owing to the lightness of the money market.

LOCAL INTELLIGENCE. A keg of beer, a horse, a wagon and a man went off on a vacation yesterday afternoon to sit in the shady retreats of Baldwin's ranch. The animal, however, during the siesta of his Italian master, took things his own way and smashed the wagon into small pieces.

The El Monte Base-ball Club and the Lamanda Park nine played a game of base-ball on Sunday afternoon, at the latter place. The agreement was that the winning side be paid \$30, with no wine thrown in. In the fourth inning a disagreement arose, the score then standing 15 to 5 in favor of the Lamanda boys.

The funeral of Mrs. Consuelo P. Longley will take place from the residence of Mr. John Jewett in South Pasadena, Wednesday, July 24th, at 1 o'clock p.m. The interment will be in Oakland new cemetery, Pasadena.

A young man living in the suburbs, who is also much of a swell, was arrested this morning for failure to pay his tailor bill. It cost him a little over double the amount by having the court settle it. People who put their clothes for cleaning in the tailor's hands, and then extract them from the shop during his absence, can draw considerable food for thought out of this.

A LUCKY ESCAPE.

Herbie McCoy, a 15-year-old offspring of Dr. John McCoy of San Francisco, had several fingers blown off by the premature explosion of a dynamite cap, which he was handling with a drill. The lad was stopping with some friends at Los Casitas, and had gone into a cañon with several men, where the accident occurred. The wonder is the boy escaped so easily.

WHERE DEATH CALLS.

Mrs. C. P. Bulla, wife of R. N. Bulla of Los Angeles, breathed her last yesterday afternoon at the home of relatives in South Pasadena. Deceased was attended by Mrs. Dr. Beach, and had been removed from this city only a few days ago, hoping the change would be for the better. Deceased was a victim of consumption, and was in her 41st year. She was conscious to the last, having risen up a few minutes before her death to bid her friends farewell. Deceased was a daughter of E. Longley and wife of South Pasadena, and a sister of Howard and Lo Longley, court stenographers in Los Angeles.

POTPOURRI.

The new fire engine was out on dress parade for a short time this afternoon. Rev. John A. Brooks of Kansas City, candidate for Vice-President on the Prohibition ticket, is expected to arrive in this city during the present week.

The Pasadena gentleman who made advances to purchase the San Gabriel Valley Rapid Transit Railroad should come forward and give his name to the public.

A young lady today was mailing a letter in the postoffice and the envelope wouldn't stick. With ready wit she took a wad of chewing-gum from her fair cheek, ran it along the bothersome edge and then resumed her quid with satisfaction. The man at the front window then gave a Wanamaker smile, and the young lady departed in peace.

TEN MINUTES WITH JUSTICE.

Justice Vanderlip is acting during the absence of P. A. Van Doren over the Recorder's court.

Bobbie Heston should be released. More than that, His Honor is heartily in favor of it.

Marshal McLean, who is now absent from town, gave strict orders to members of the police force not to communicate any of the business of the office to the reporters. Where!

Marshal McLean is expected back from his business trip to Santa Barbara on Saturday.

Informers Case seems to have gone into the vermin. His familiar figure no more darkens the court-room.

The police docket has been relegated to the private office of the Marshal, where it is guarded by lock and key.

GLEANINGS EVERYWHERE.

The fire department now numbers 22 men.

The military company will meet for permanent organization one week from tonight.

The Union League has sent out a number of invitations to party members in this city to attend the excursion to Catalina.

Baggage-master Hoff enjoyed his first vacation with his family at Redonda beach yesterday.

WISCONSIN strikers are giving more trouble.

The complete vote in Orange county gives Orange 775 votes, for the county seat, and Santa Ana 1729.

An inflated bag, answering the description of Hogan's airship, is said to have been seen passing over Louisville, two miles up in the air, and bound southwest. Perhaps the lost aeronaut is headed for Los Angeles.

The Tribune admits that it knows nothing whatever about the sewer contractors and that it proceeded to take up its old cry against all who object to the gun-club route. The Tribune's attempts to deal with public questions resemble the efforts of an oyster to chew sawdust. The Tribune should content itself to its self-appointed task of bearing the castor oil market, by publishing inane corner cards.

ENGLAND has already commenced the construction of fifty-two warships. When the interests of their navy are at stake, there is only one opinion among Englishmen, whichever party they belong to. It would be pleasant to see some of the same sort of unanimity and enthusiasm displayed on the subject in this country, where the navy is so entirely inadequate for a nation of the first magnitude. We have no need for a big standing army, but we ought to have a powerful navy.

Two men had a heated religious discussion in San Mateo county, and one of them will probably die—not from the effect of discussion, but from a bullet, which the other fired into him, his other arguments having, presumably, given out. It is a remarkable fact that the bitterest and most vindictive quarrels which the world has ever witnessed have been based on religious grounds. Strong religious convictions appear entirely compatible with an entire absence of charity, and yet Paul declared that charity—or love—is the greatest of the three cardinal virtues.

In an interview published in the Chronicle, Gen. Vandever takes the same ground as THE TIMES, in relation to the Masac scheme in Lower California. On the other hand, Col. Masac says there will be no smuggling of Chinese, but as he immediately afterwards expresses his belief that the Chinese Exclusion Act will become null and void, during the next session of Congress, it is just possible that no great importance is to be attached to his statements. It is very sure that no Congress will brave the indignation of the entire Coast, and of a large portion of the population east of the mountains, by annulling that just and necessary law, for which we struggled so hard. The political life of legislators who should vote for such annulment would be worth very little.

W. H. SMITH, the Government legislator, yesterday laid on the table of the House of Commons the report of the Committee on Royal Grants, which recommends that \$8000 a year should be added to the Prince of Wales's already large allowance. Smith, who rose from the position of newsboy, and is "Admiral Sir Joseph Porter, K.C.B." of Pinfold, can be relied on to sympathize with the granting of extra favors to royalty, but it is doubtful whether the House will pass the measure without a big fight. Britishers are rapidly becoming tired of the excessive cost of their cumbersome royal establishment, especially in view of the great and increasing poverty which they see around them, wherever they go, throughout Great Britain. There is likely to be a big fight in the Commons when the debate comes up on Thursday.

THE TENTH-STREET HOTEL.

Another scheme for the completion of the Tenth-street Hotel has been devised by the originators of the project, details of which will be found in another column. What is now asked for is certainly very reasonable, and if our moneyed people really desire to see this great hotel completed, they should not delay, but "chip in," according to the size of their respective bank accounts. There is no doubt whatever that a large, first-class hotel does much to advertise and draw tourist travel to a place. This we have seen in the case of the Palace Hotel, San Francisco; the Hotel del Monte, the Raymond, the Coronado, the San Augustin Hotel in Florida, and many others. Wealthy travelers are now connoisseurs in hotels. So much progress has been made in that line in this country during the past twenty years that an establishment which would have been deemed first-class at the close of the war would now not pass muster at all. Los Angeles being a city that is so well calculated to attract and hold tourist travel from all parts of the world, we are especially interested in having a fine caravansary, to invite our guests to. "It is a great pity that the project was not inaugurated a year earlier. It would have been carried to completion before the stoppage of speculative enterprise came, to throw a damper on this and many similar schemes. However, that cannot be helped, now. The originators of the scheme are in a hole; the building is in a hole, and the question is: How is work to be resumed? Were it purely and simply a private undertaking, it would, of course, be no concern of the public at large, but the advantage which a large, first-class hotel, containing all the latest improvements, would be to the city, justifies the projectors in asking the public to take a hand, whatever their views may have been as to the advisability of the location, or the superior character of other or proposed enterprises of a similar nature.

There is one stipulation, however, which subscribers ought to make before they sign; that is, that no such ally name as "The Splendid" shall be given to the building. With such a wealth of resonant Castilian names, associated with the historical, geographical, or botanical features of this beautiful land, it would be a wanton and unpardonable prostitution of verbiage to inflict upon the chief architectural pile of the city a name which finds its parallel in thousands of little "dobe or lumber Grand," "Palace" or "Cosmopolitan" hashhouses scattered through the mining regions of the Territories. For goodness gracious sake, don't hoodoo the big hotel, at the start, by giving it a name that a school girl applying to her chewing-gum.

THE POLICE MUDDLE.

The Police question still remains in a most unsatisfactory condition. Both Messrs. Burns and Glass claim obedience from the force. What sort of discipline could be expected from a regiment, whose colonel ordered one thing, while the Secretary of War ordered another?

The Police Commissioners are holding professed meetings in secret places, while Mayor Hazard asserts that life is short, and refuses to share in their deliberation.

The latest move of importance is the appointment by the Council of M. T. Collins as Commissioner, to fill the vacancy caused by the resignation of Commissioner Bilderrain, in accordance with the request of the Democratic City Central Committee, that two Democrats should be appointed on the Commission.

Respectable citizens of Los Angeles are far less concerned as to the politics of the members of the Police Commission than as to their character. THE TIMES would a thousand times rather see a good, honest Democrat appointed than a dishonest Republican. What we desire to see—what every good citizen wishes to see—is an end to the present disgraceful and demoralizing state of affairs in the Police Department. It is the general sentiment of those whose opinion is entitled to weight—an opinion in which THE TIMES coincides—that such desirable consummation is by no means furthered by the appointment of Mr. Collins to a seat in the Police Board.

The members of the City Council are taking a daring step in thus antagonizing public opinion on this question. We are no longer in the boom period. Times are more or less hard, and taxpayers have ample time to think about economy and good government. If the members of the Council persist in their present course they will dig their political graves so effectually that there will be no resurrection for them.

LONG BEACH.

CONCLUDING EXERCISES OF THE ASSEMBLY.

The Children Show What They Have Learned About the Bible—The Last of the Platform Meetings—Interchange of Experiences—Prof. Marks' Lecture.

LONG BEACH, July 22.—(Correspondence of THE TIMES.) The devotional hour was led by Mr. McKee, and a large number testified to the great benefit they had received from the assembly.

At 10 o'clock Prof. and Mrs. Marks, of Chicago, gathered the children in the tabernacle for a final review of their work. About 100 children were present, and a large number of adults. The proficiency of children in Bible study, after so short a period of training, reflects great credit upon their teachers. They readily took the number of books; the five main divisions of the Bible; named every book in order in both Old and New Testaments; told where the Bible was written, what material was used, who the writers were, and showed a general knowledge of the Bible which would surprise and put to shame a great many persons of riper years.

Next followed an examination on the Holy Land, which was readily located, and its boundaries, mountains, cities, and rivers were named with the greatest ease.

The work closed with a short temperance lesson and the reciting in concert of the pledge and Lord's prayer. At 11 a. m. followed the platform meeting. The audience was very large at this final gathering, the "Jingler Concert Company" furnishing the music for the occasion. The platform was formed by Revs. J. M. Hilbish, John B. Green, Young Corey, Prof. Marks, Leslie Gay, Mrs. Marks and Mrs. Brown.

Rev. Mr. Corey led in prayer. Leslie Gay spoke of the devotional work of the alliance; what it has done, and what it may accomplish. The speaker told the history of the alliance work, dwelling especially upon the revival spirit which has been all the departments of labor. The importance of Bible-training as a special preparation for revival work was shown with great clearness. The "Jinglers" favored the audience with a most beautiful sacred song. "Tell us where to cast our net."

Rev. J. M. Hilbish, presiding elder of Fresno district, spoke of the general features of the alliance work. The speaker mentioned the various Bible-training features. "We all should be Bible-Christians. We need the inspiration to labor, which this study gives. The world today is studying the Bible. Some are enemies, some are critics; but almost everyone is studying the Bible. It is God in all parts of the world, and unearthing proofs of the historical truth of the word. Recent discoveries in Syria and Egypt sustain the historical statements of the Old Testament, which have been questioned by its enemies in past ages. Every facility is now offered the student and its universal use is one of the brightest elements of hope for the future."

Among the dominant thinkers of the age there is nothing which sustains as thoroughly as the facts of the English Bible. Let us know, let us love, let us read the word of God according to its teachings."

Mrs. Brown, pastor of the Society of Friends, next addressed the audience. She said:

"The thought which has most impressed me during this session is as we have been blessed with delightful songs, intellectual feasts in the lectures we have heard—indeed for all we have enjoyed—has been a joyous evermore. The great effort has been at work everywhere for the uplifting of our fellowmen to a higher, nobler plane of living as the greatest reason for us to rejoice."

Rev. J. M. Hilbish spoke of the young people's work done in the alliance. He said: "Some have regarded this session as not being successful. The vast majority of us believe it has been a great success. One young lady said to me: 'I have gained five pounds in two weeks at Long Beach,' and was returning glad because of this. I am glad for something else. The Word says: 'Bodily exercise profiteth little, but godliness is profitable unto all things.' Our young people have been lifted up to a higher plane, and will go forth as flames of fire to quicken dead churches and reach forth to 'rescue the perishing' around them."

Said the speaker, "Sound the Jubilee. Mrs. Marks was called upon and said: 'Whittier says: "A little word in kindness spoken, A motion or a tear, Has often soothed a heart that's broken, And made a friend sincere."'

The speaker dwelt on the leadings of providence, and urged the taking of everything to God. She spoke of the work of the mission which she had in charge in Chicago. The importance of the work among the children was emphasized, and closed with an earnest appeal to work for God.

Rev. Mr. Young, Presbyterian pastor of Long Beach, next addressed the meeting. He said: "How many have been refreshed during these meetings. Their thoughts have been turned into a higher and nobler channel. I am a single charge, even of disturbing the peace, was called in either of the justice's court today. A good deal of this good order is to be attributed to the fact that there are at least 200 converts from the mission and the people here every Sunday, who keep a good lookout for the suppression of any attempts at disturbance."

The tent town on North Beach will continue on the north side of the 99 street, as the rest of the tent town space has been let out by Mr. Ellis. Mr. J. W. Scott of the Arcadia was in Los Angeles today, making arrangements for the new pavilion, and in position by the Arcadia bathhouse, the present accommodations being quite inadequate.

The temperature on the porch of the Arcadia today was the hottest of the day, being only 74°. A comparison with the glasses at the surrounding towns and inland cities was not instructive.

Rev. B. Garvan, D.D., arrived at the Arcadia today.

Mr. G. H. Johnson has cast his lot for the season with the tenters on North Beach. Passenger Agent John Clark of the Southern Pacific was down here today on a business trip.

Mr. Sutherland Hutton, wife and family have joined the guest-roll at the Arcadia.

Conductor Johnny Bassett of the Southern Pacific returned to his duties today, having passed a week's pleasant recreation.

A. C. St. John and wife, M. Harris, J. W. Allen, M. Liebman, R. W. Lawton and E. A. Howard are among the arrivals at the Arcadia today.

which Prof. Marks of Chicago, gave his illustrated lecture on "Jerusalem in her grandeur and decay." He said, "O Jerusalem, how often would I have gathered you as a hen gathers her brood under her wings, are the words uttered by Christ as he stood upon the temple summit of the Mount of Olives, just east of the city. From this point you can look down upon Jerusalem, situated like a queen upon her throne of hills. There she is in all her grandeur and glory. Her magnificent walls are 250 feet high on the east and five miles in length, made of huge stones 40 to 60 feet in length. Here and there are massive towers, 170 feet high, made of marble and cedar and ornamented with gold. Herod's palace on Mt. Zion is of solid marble, surrounded by parks, fountains, statuary and ornamental trees of every variety. The aqueduct, to be seen in the distance, conveys water from Solomon's pool, south of Bethlehem, to Jerusalem. The great amphitheatre of Herod is most interesting. In this immense structure the gladiators fought."

"The most formidable of the many towers is that of Antonia, a military fortress and castle. Here was the judgment hall of Pilate, where Christ was mocked, tried and sentenced. Here Paul was taken and imprisoned. The great amphitheatre of Herod is most interesting. In this immense structure the gladiators fought."

"But of all places of historic interest none surpasses the ancient temple situated on Mt. Moriah, in the center of the courts, with marble floor, columns of cedar and marble, ornamented everywhere with gold, which is ever reflecting the sun and dazzling the eye with its brilliancy. This is the work of Herod. The first temple built by Solomon was destroyed by Nebuchadnezzar. The second was built by Zerubbabel. This last, built by Herod, was 46 years in construction, and was larger than any former one. Here Christ entered, and with a scourge of whips drove out the cattle and the money-changers."

"Into this city Christ made His triumphant entry. Into it He was led as a prisoner from the garden of Gethsemane. From it He was led to Golgotha, where He suffered the death of the cross."

"Christ foretold the destruction of this city at a time when it seemed most improbable. He said of the temple: 'There shall not be left one stone upon another, and 70 years later, Titus, the Roman General, with his legions laid siege to the city, and after three years and a half of bloody struggle the city was captured. From one gate alone 98,711 dead bodies were taken. Ninety-seven thousand were carried off as prisoners. During the famine the most distress on record prevailed, mothers even killing and eating their own children. The utter destruction of the city was complete."

"Let us for a moment glance at the city of today. It stands on the same site, but has little of its former grandeur. Its streets are very narrow and often exceedingly filthy. Some of the ancient 10 feet wide, others 15 feet wide. The streets are named. On every hand are bazaars kept by the merchants. Every Friday the Jews meet at the 'walling place,' where they sell their wares, and hence the loss of the city. The Mosque of Omar stands where the temple was built and is the most conspicuous object of the city. The Church of the Holy Sepulchre, built by the Empress Helena 300 A.D., stands over the supposed place of Christ's crucifixion. The sepulchre of our Saviour, made of marble, is shown to visitors. The city of today stands on the ruins of the ancient city, as it is from 30 to 80 feet above the foundations of ancient Jerusalem. The city has been destroyed 17 times, wholly or in part, and today it is only a shadow of its former greatness and glory."

THE CITY IN BRIEF.

Virgil B. Duval was arraigned in Department No. 6 yesterday, and will plead July 23d.

A marriage license was issued yesterday to Jacob Mathias, aged 49, and Juliet E. Prescott, aged 48, of Santa Barbara.

John McDowell was arrested by Officer Jackson yesterday afternoon on Hewitt street, and locked up for disturbing the peace.

The Council will again convene this morning at 9 o'clock on a board of equalization, when those interested can appear and present their cases.

There are undelivered telegrams at the Western Union Telegraph office for Antonio Mustichnick, Dr. E. Griswold, D. Bayles, Mrs. A. D. Chandler, J. T. Butler.

The Sons of St. George Royal Oak Lodge No. 220, will give a dramatic entertainment and concert, to conclude with a dance, this evening in Good Templars' Hall.

Tonight being ladies' and gentlemen's night at the Nativatorium, a special program has been prepared, and patrons will be well entertained. Spectators admitted free.

James Hunter and W. Morris were arrested yesterday and lodged in the County Jail for fighting on the public streets. Hunter was afterwards released on depositing \$10 bail.

Bishop A. Grant, D. D., will deliver a lecture at the Stephens A. M. E. Church on Old Second street this evening. Subject: "The Negro Problem, Woman Suffrage and Temperance."

The following cases were set by Judge McKinley yesterday: Benoit Renault, August 10th; John Phelan, August 16th; Robert Campbell, August 21st; Lou Harley, August 22d; T. W. Lyons, October 3d.

The following passengers left for the North by Southern Pacific train last evening: Mrs. Norton, Mr. Furlong, W. Worsley, W. Harris, C. Koehler, Dr. Hirsch, Mr. Clark, W. G. Riedinger, Mrs. Chamberlain.

Yesterday, Judge Clark's court, the Banta will come up on the proceedings for a new trial. The statement not having been filed, the motion was stricken from the calendar. This will stop further proceedings until the statement is filed.

A short time ago THE TIMES noted the receipt of a double callily, and now comes a triple lily of the same species, grown by Mr. J. Dick of Pio Heights. If they keep on multiplying their petals in this way, a new flower may yet be developed.

There will be a social and parish reunion this evening at 8 o'clock, in the parish hall at the rear of St. Paul's Episcopal Church on Olive street, between Fifth and Sixth streets, to which the members of the church and their friends are cordially invited.

Yesterday, before Justice Lockwood, a man named Gray, a bartender at Santa Monica, was tried and found guilty of battery. He was drunk and got into an altercation with J. H. Reis, whom he slapped and otherwise ill treated. Gray was fined \$25, which he paid.

Thomas Burns and A. P. Huff got into a rough and tumble fight, on Adams street, between 2 and 3 o'clock yesterday morning. They succeeded in pummeling each other up considerably, when Officers Craig and Halleran took them in. Judge Stanton gave them ten days each in the County Jail yesterday afternoon.

Two complaints were filed against E. C. Webster and a long list of defendants yesterday. One was by C. E. Green, who sued to recover judgment for \$50,000 on two promissory notes, one for \$50,000 and the other for \$40,000. The other is by William Morgan, who sued to recover judgment for \$10,000 on a loan with mortgage security.

Ballards, the wounded Mexican at the police station, was somewhat brighter yesterday, and Dr. Morrison thinks that he has a possible chance for his life. He still refuses to say anything about the shooting, insisting that he cannot remember anything that occurred on the night of the shooting, as he was too drunk. Mrs. Green, the woman who was shot, is doing very well.

H. Wahlenmaier, against whom a suit by the Commercial Bank of Santa Ana was noted yesterday, explains that he was simply security on a note given by C. P. Schneider, that Schneider paid money to the bank to settle the note in question, but they applied it on other paper of his, and now sue him and his security on this. Mr. Wahlenmaier proposes to contest the matter.

A meeting of the new cavalry company will be held this evening at 8 o'clock at the rooms of the Chamber of Commerce, on First street. The company will be formally organized, and all those who have signed the roll, or indicated their intention of so doing, are expected to be present. Judging from the earnest efforts of the Recruiting Committee, there will be a large meeting, and the company will start out with a boom.

The Southern California Loan Association held its annual meeting at the Board of Trade rooms last evening, and elected the following directors: A. H. Hagar, W. Devereux, George Basserman, George T. Bennett, Thomas Humphreys, Jacob Schaffer, George Gregg, Charles E. Donnatina and O. K. Cushing. The following officers were elected: President, A. H. Hagar; vice president, W. Donnatina; finance committee, Jacob Schaffer, George T. Bennett and O. K. Cushing.

Considerable interest has been felt in regard to the Kline-Jannet dispute at Pasadena about a little girl that had been adopted by the parties, one side of which has already been published. Mrs. Kline, in reply, has written a long statement, in which she takes issue with the Jannets, saying that the girl had always been taken care of, and was happy and satisfied until she was induced by the Jannets to leave her home and live with them. She further says that another good home has been provided for the girl, and that if the Jannets again interfere there is likely to be trouble, as the Humane Society will permit of no interference with its charges.

Yesterday afternoon about 6 o'clock, while H. M. White, a professor in one of the colleges up north, was standing in the cigar store at the corner of Spring and Franklin streets, F. K. Park, a clerk in the auditor's office of the Santa Fe road, came in, and, walking up to White, without a word struck him a heavy blow in the mouth, cutting his lip. An interchange of compliments followed, when the parties separated without doing any further damage. There is something of a story behind the affair, the present wife of Mr. Park having been formerly engaged to White. She discarded White and married Park, whereupon the former wrote a letter to the latter, which he resented in the manner above stated. There were no arrests.

PEOPLE'S STORE.

THE EASY, OLD-FASHIONED, SLOW-GOING MERCHANT.

They Buy on Long Time and Sell on Eternity—Waiting for a Boom, then the Boom Seldom Comes.

PEOPLE'S STORE, LOS ANGELES, JULY 22.

Every town and city has its old-fashioned, slow-going, fossilized merchants, who have arrived, even with the clinging barter of the old credit system thrown in. They buy on long time and sell on eternity—they charge, they credit and they lose—they go on in this way year after year, and by huge profits and the aid of a loan, such as we had a year or two ago, they float for a short time on the wave of prosperity and then sink into obscurity, cursing hard times and awaiting better times with a look toward heaven, helpless, hopeless and resigned.

We claim, that under our system, we can underbid and undersell any credit concern on the face of the globe. Our successful methods of modern merchandising has demonstrated that our principle of doing business in the sharp, decisive, musical 5 per cent. added to cost, brings us to our door crowds and multitudes that know we are the benefactors of the trading public and the ones whom to trade with.

We are with the people first, last and all the time, and we are proud to say the people cheer us with their presence and patronage. As we told you before, the more we can sell the larger we can buy, and the larger we can buy the cheaper we can sell, and the cheaper we sell the more you can save and as it is a mutual affair and to your benefit, come, trade with us at the People's Store.

PEOPLE'S STORE.

The Hotel del Coronado

Has witnessed many a splendid evening during the past few weeks, combining a grand mixture of pleasure, business and recreation. The weary brain workers forming the Southern California Editorial Association, many accompanied by their wives and families, had a grand old time, lasting nearly a week. The patrons of the glorious sport of yachting, with their many friends, made this their headquarters during the last brilliant struggle for supremacy among those who "rover of the Sea."

Add to these the many visitors from the bleak and foggy north, attracted by our genial, even climate and sunny skies, these, with our semi-monthly excursions from Los Angeles and vicinity, all combine to make a grand total of visitors to this peerless resort. And speaks volumes in praise of its unequalled natural advantages, its carefully kind management and its moderate charges. On next Saturday our citizens and visitors will again have an opportunity of visiting "hotel par excellence," and they will there be no doubt, respond both in numbers and enthusiasm equal to any former occasion. For particular see advertisement.

DR. M. HILTON WILLIAMS.

Specialist in the various diseases of the

Head, Throat and Chest

Diseases of Females.

OFFICE:

In the Hollenbeck Block, Cor. Spring and Second Sts., Los Angeles, Cal.

Oxygen, Compound Oxygen, Nitrous Oxide, and other inhalations, used in all

DISEASES OF THE LUNGS.

We have introduced the compound oxygen treatment with our system of practice in the cure of Asthma, Bronchitis, Consumption, Dyspepsia, Insomnia, Sore Throat, Catarrh, Rheumatism, and Nervous Prostration, while only the most improved methods are employed in all female complaints.

As is well known, Oxygen is the life-giving principle in the air we breathe, and Oxygen in the air imparts that happy and buoyant feeling after thunder storms. Persons often require more oxygen than is in the air around them, and thus the doors and windows are opened, tears of collars, loosen the waist, and cause a free and refreshing breeze to be blown, and thus the air is renewed. Traveling is done mainly to resorts where the air contains more oxygen, and mountains are ascended to breathe the Oxygen, which is light and ascends first.

Oxygen and Ozone are gases, and must be stored up and used by inhaling them. Our apparatus for storing and having these gases compounded with other suitable agents is the most perfect and complete of the kind, and yet they are undoubtedly the greatest invention made in the last twenty years in any department of medicine, and the results are truly wonderful.

The treatment by purifying the blood, thereby increasing the circulation, promotes absorption, improves digestion and assimilation, increases the capability of the lungs, and acts as a gentle stimulant to the nervous system.

The London, Eng. Lancet, very truly states: "The compound oxygen treatment is the greatest discovery of the nineteenth century." Clergymen, Statesmen, Lawyers, Doctors and all classes indiscriminately, wherever it is introduced, both use and recommend it.

The testimonials given below are very fair samples as to the time required for effecting cures in these troublesome cases.

Dr. Williams—Dear Sir: I am happy to say that the cure you effected in me for a severe case of chronic disease has proved to be permanent. For over a year I was troubled with post-nasal catarrh and granular throat disease, and had done so much for it that I had but little hope of ever being cured, when I first went to you, but you gave me such positive assurance that you could cure me that I began your treatment, and in four months from that time you discharged me as cured, and I am happy to say the cure was a permanent one, and I have never been troubled since. I am happy to say the cure was a permanent one, and I have never been troubled since. I am happy to say the cure was a permanent one, and I have never been troubled since.

Through a medical friend I was induced to try your treatment. I became very much discouraged at times, but persevered, as I felt most desirous to be cured. If it will be of any value to you, you are at perfect liberty to publish and use my name. Send to the present time, which is now over a year. Yours very truly, MRS. LUCY R. TRASK.

200 North Olive street, Los Angeles, Cal. Dr. M. Hilton Williams—Dear Sir: I have derived from your treatment, remembering how glad I would have been could I have seen something of the kind from a personal friend, and I am happy to say the cure was a permanent one, and I have never been troubled since. I am happy to say the cure was a permanent one, and I have never been troubled since.

Had been suffering for several years with what various physicians in the East pronounced "chronic ulcerated laryngitis," and considerable time at the Clifton Sanatorium, and employed the best medical skill I could find, without any permanent benefit, and as a last resort our family physician recommended the Angostura. For a time I improved, and then I began to go backward and all my former symptoms returned.

Through a medical friend I was induced to try your treatment. I became very much discouraged at times, but persevered, as I felt most desirous to be cured. If it will be of any value to you, you are at perfect liberty to publish and use my name. Send to the present time, which is now over a year. Yours very truly, MRS. J. D. WILEY.
